About the YouChemE

We believe that the youth are the future leaders of innovation in the industry. Therefore, YouChemE is dedicated to catalyse the young professionals and the students by increasing their engagement in the oil and gas industry.

YouChemE provides a unique opportunity to learn, network, be inspired by successful professionals and be prepared for the workplace. The program features panel discussions with senior executives, workshops delivered by renowned professional speakers, hands-on experience with the latest technologies, and free personal services to set the youth up for a successful career.
