Floor Plan

Welcome to YASREF

The Yanbu Aramco Sinopec Refining Company (YASREF) Ltd., a joint venture between Saudi Aramco and China Petrochemical Corporation (Sinopec), is a world-class, full-conversion refinery that covers about 5.2 million m² in the Yanbu Industrial City, and is the key anchor project in Yanbu. YASREF processes more than 400,000 barrels per day (bpd) of Arabian Heavy crude oil to produce premium transportation fuels, as well as high-value refined products for both international and domestic markets.

YASREF is a significant addition to the impressive downstream portfolio of Saudi Aramco, while building on and cementing the strategic partnership with Sinopec, Saudi Aramco's largest crude oil partner and buyer. Both companies bring commercial and technical expertise to the joint venture to enhance trade of transportation fuels between a significant energy producer and its consumer. In addition, YASREF represents a continuing step forward in the strategies of Saudi Aramco and Sinopec to drive growth further downstream to capture additional value along the hydrocarbon chain.

Our Products

- 287,000 barrel per day (bpd) of Diesel
- 105,000 barrel per day (bpd) of Gasoline
- 16,000 barrel per day (bpd) of Butane
- 5,000 barrel per day (bpd) of Propane
- 400 ton per day (TPD) of Benzene
- 1,200 ton per day (TPD) of Pelletized Sulfur
- 6,200 ton per day (TPD) of Petroleum Coke

Get the Most Complete Bottom-of-the-Barrel Solutions

Are you ready for innovative solutions to maximize refinery profitability? Talk to the global leader in hydroprocessing technologies and catalyst systems for the most complete bottom-of-the-barrel solutions for upgrading heavy oil residues. CLG and ART Hydroprocessing leverage Chevron's R&D and refinery experience, Grace's catalyst knowledge and manufacturing excellence, and McDermott's Lummus process technologies and internals expertise to help you meet the unique demands of regional crude slates.

Innovative Solutions to Maximize Refinery Profits

- Retrofitting Existing Reactors
- Resid Upgrading and Premium Base Oils
- Improving Product Selectivity and Operating Flexibility
- Reducing Turnaround Time and Increasing Margins
- Addressing Rising Environmental Standards

The Forum® Valve Solutions Family of Products

Forum® Energy Technologies supplies one of the most comprehensive offerings of quality valve products in the industry through its family of trusted valve brands. Forum® brands manufactures valves, actuators and related products and services for the oil & gas, petrochemical, power, mining, biofuels and other industries.

DSI®Valve Cast & forged, carbon steel, chrome & stainless steel gate, globe & check valves. PBV®Valve On & offshore trunnion & flanged floating ball valves, API 6D check valves, subsea ball valves and API 6D pipeline gate valves. ABZTM Valves & Controls High performance butterfly valves, actuation products & automation accessories.

Quadrant®Valve & Actuator, LLC Threaded, seal welded, maintenance design, multi-port & flanged floating ball valves, butterfly valves, actuators, gear operators & accessories.

Cooper®Valves Cast & forged stainless, nickel & exotic alloy gate, globe, check & ball valves. Accuseal®Valves Forged metal-seated floating ball valves designed for refining, power, mining and critical severe service applications

Forum®brand companies provide the technologies, proven valve solutions, delivery and support capabilities to ensure your project's success. FET is committed to providing unmatched product reliability and performance to customers worldwide.

The World Refining Association has achieved worldwide recognition for the organisation of high quality, strategic and technical conferences within the downstream oil and gas sector. Our industry led events are renowned as market leaders in their fields.

Due to strong and long standing relationships with governments and all of the major oil and gas producers worldwide, our events consistently tap into the key issues affecting the global industry. We bring together the principle influencers to share their thoughts, ideas and vision for the oil and gas industry of the future.

Yanbu Aramco Sinopec Refining Company (YASREF) Ltd.

Website **www.yasref.com**

Contact Name **Khalid Alonaizan**

Email **Khalid.AIOnaizan@yasref.com**

STAND NO. 231

The Yanbu Aramco Sinopec Refining Company (YASREF) Ltd., a joint venture between Saudi Aramco and China Petrochemical Corporation (Sinopec), is a world-class, full-conversion refinery that covers about 5.2 million m² in Yanbu Industrial City, and is the key anchor project in Yanbu. YASREF processes more than 400,000 barrels per day (bpd) of Arabian Heavy crude oil to produce premium transportation fuels, as well as high-value refined products for both international and domestic markets.

YASREF possesses the location advantage to effectively and efficiently supply both international and domestic markets. Products include 287,000 bpd of ultra-low sulfur diesel, 105,000 bpd of gasoline, 16,000 bpd of butane, 5,000 bpd of propane, 400 ton per day of benzene, 1,200 ton per day of pelletized sulfur and 6,200 ton per day of petroleum coke. The refinery uses state-of-the-art technologies to assure the quality and quantity of the production of premium clean transportation fuels that could include future production of paraxylene and products to support downstream industries.

GDA STRIVES TO

Establish

Establish relationships with other regional and international organisations and associations by creating alliances.

Develop

Develop relationships with academic institutions and private sector industry players to exchange expertise, promote research and align sector needs.

Launch

Launch a wide range of services from technical conferences, strategic round-table seminars and best practice forums.

Build

Build relations with conference organisers and use benchmarking with best models to create useful events.

The Gulf Downstream Association (GDA) is established by its founding companies from Saudi Aramco, Kuwait Petroleum International (KPI), Bahrain Petroleum Company (BAPCO), Kuwait National Petroleum Company (KNPC) and Abu Dhabi National Oil Company (ADNOC). The GDA is a non-profit organisation which aims to bring

leading Downstream players together to further develop the industry and draw mutual benefits from sharing knowledge and best practices.

GDA's vision is to become an internationally recognised association that serves as a catalyst for the strong and sustainable growth of the

Downstream industry.

GDA's mission is to provide a platform for sharing knowledge, experience and best practices. This will be achieved by becoming a premier association in the region that connects the Downstream companies, service providers, governmental organisations, and academic institutions.

OUR CORE VALUES

Collaborate and network to promote knowledge sharing
Provide high quality services with best values
Promote innovation and continuous development

Foster excellence in all activities
Support and champion sustainability as a priority
Strive to be a respected institution driving the industry
